| This spreadsheet has been compiled by Pete Zemroch and is based on the extensive researches of football historians such as Dave Twydell, Paul & Shirley Smith, Douglas Rose and Simon Inglis. |                            |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |
| The number in each cell indicates the number of home league games that a club played at a particular ground in a particular season.   |                            |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |
| S indicates the entire season, N indicates that the exact number of matches is unknown and further information would be appreciated.  |                            |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |
| League games only are included, not cup ties or friendlies  |                            |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |
| The preference is to use non commercial names for stadia wherever possible.   |                            |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |
| Please acknowledge the source of this spreadsheet if you wish to use the information elsewhere.   |                            |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |
| I would also appreciate it if you could make a token  |                            |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |

| Teams in league   |                            | 92           | 92           | 92           | 91           | 92           | 92           | 92           | 92           | 92           | 92           |
| This spreadsheet has been compiled by Pete Zemroch and is based on the extensive researches of football historians such as Dave Twydell, Paul & Shirley Smith, Douglas Rose and Simon Inglis. |                            |              |              |              |              |              |              |              |              |              |              |
| The number in each cell indicates the number of home league games that a club played at a particular ground in a particular season.   |                            |              |              |              |              |              |              |              |              |              |              |
| S indicates the entire season, N indicates that the exact number of matches is unknown and further information would be appreciated.  |                            |              |              |              |              |              |              |              |              |              |              |
| League games only are included, not cup ties or friendlies  |                            |              |              |              |              |              |              |              |              |              |              |
| The preference is to use non commercial names for stadia wherever possible.   |                            |              |              |              |              |              |              |              |              |              |              |
| Please acknowledge the source of this spreadsheet if you wish to use the information elsewhere.   |                            |              |              |              |              |              |              |              |              |              |              |
| I would also appreciate it if you could make a token  |                            |              |              |              |              |              |              |              |              |              |              |
